Track/Line	Instrument	Mic/D.I.	Stand / Tripod
1	Kick	Audio Technica 250 de	small
2	Snare	Shure SM 57	small
3	Hi-Hat	Audio Technica ATM 450	small
4	Tom 1	Audio Technica AT 35	xxxxxxxxxxx
5	Tom 2	Audio Technica AT 35	xxxxxxxxxxx
8	Overhead L	Audio Technica AT 4040	tall
9	Overhead R	Audio Technica AT 4040	tall
10	Davul L (Tiago)	Beyer Dynamic D57c	xxxxxxxxxxx
11	Davul R (Tiago)	Beyer Dynamic D57c	xxxxxxxxxxx
12	Davul L (Dinis)	Beyer Dynamic D57c	xxxxxxxxxxx
13	Davul R (Dinis)	Beyer Dynamic D57c	xxxxxxxxxxx
14	Djembé	Audio Technica ATM 350	xxxxxxxxxxx
15	Bendir	Audio Technica ATM 350	xxxxxxxxxxx
16	Riq	Shure SM 57	tall
17	Bass	D.I.	xxxxxxxxxxx
18	Divan	D.I.	xxxxxxxxxxx
19	Violin	D.I.	xxxxxxxxxxx
20	Bagpipe	Shute Beta 57 y D.I.	xxxxxxxxxxx
21	Tin Whistle	Shure Beta 57 y D.I.	tall
22	Sanfona	D.I.	xxxxxxxxxxx
23	Baglama	D.I.	xxxxxxxxxxx
24	Voz Christian	Shure SM 58	tall
25	Voz Ruben	Shure SM 58	tall
26	Voz Raquel	Shure SM 58	tall
27	Samplers L	D.I.	xxxxxxxxxxx
28	Samplers R	D.I.	xxxxxxxxxxx

This rider is just a work guide. Any microphone can be changed for a similar option.

Monitoring

- 6 lines with 6 independent mixes.
- The band uses in ear monitors. Need XLR for mono or TRS JACK for stereo.

FOH Inserts

- Compression
- Gate
- Reverb
- Delay

SOUND SYSTEM I PA

The sound system should be appropriate to the space and should reproduce a frequency range from 30hz to 18khz, the most linear and uniform as possible, with a precision of 110 dBSPL without distortion and within phase. If the system is modular should exist an active crossover possible to be regulated in each of frequency range and each of them should be properly amplified. During the soundcheck there should be a technician responsible for the sound system.

SCENARIO

The band presents a scenario at the stage.

A **moon** at the top, behind the drummer, that could be placed attached to the light holders.

A **projektor** and a **screen** (when possible) would be needed to project the different scenarios and ambiances of the show.
